

# Unified Communications Meetings from Web Browser for Mobile Devices

---

## **Contents**

Requirements.....	2
Limitations.....	2

## Requirements

The Sametime Meetings Web client now supports tablet computers running the iOS and Android operating systems.

**Attention:** This support is based on mobile use of the browser-based Meetings Web client rather than a native application, and is offered with the product requirements and limitations described below.

Table 1. Sametime Meetings Web client requirements for tablet devices

	Tablets running Apple iOS	Tablets running Google Android
<b>Device</b>	<ul style="list-style-type: none"><li>• iPad</li><li>• iPad 2</li></ul>	<ul style="list-style-type: none"><li>• Motorola XOOM (MZ606)</li><li>• Samsung Galaxy Tab (GT-P7510)</li></ul>
<b>Operating system</b>	<ul style="list-style-type: none"><li>• iOS 4.3</li></ul>	<ul style="list-style-type: none"><li>• 3.1 (including future fix packs)</li><li>• 3.2 (including future fix packs)</li></ul>
<b>Browser</b>	<ul style="list-style-type: none"><li>• Safari</li></ul>	<ul style="list-style-type: none"><li>• Chrome</li></ul>

## Limitations

Due to limitations in mobile browsers, the Sametime Meetings Web client does not support the following features on tablet devices:

- Appshare hosting: The user can view an application being shared by another user, but cannot share an application hosted on the tablet.
- Appshare remote control: The remote control feature is hidden during application sharing; the user can view an application being shared by another user, but cannot use the remote control feature on that shared application.
- Audio/Video: Not supported.
- File uploads and downloads: Not supported.
- Pointer and Annotations: Can be viewed but not sourced, so these features are hidden on the tablet.

In addition, please note that Sametime accessibility features are not formally supported on tablet devices.

Disclaimer: This document is provided as support for the use of IBM Sametime on personally owned devices by Erie 1 BOCES employees. Employees should not contact Erie 1 Tech Support Staff or the WNYRIC for technical support or guidance on the use of or the functioning of their personal device(s). Personal devices may be used on the Erie 1 BOCES guest wireless (wifi) network only, but access to Sametime **MAY** be available at other accessible wifi hotspots outside of the Erie 1 BOCES Education Campus.
