CPI Nonviolent Crisis Intervention Training – Two Day FLEX Certification

WHAT: Nonviolent Crisis Intervention® training focuses on prevention and offers proven strategies for safely defusing anxious, hostile, or violent behavior at the earliest possible stage. The emphasis of Nonviolent Crisis Intervention® training is on preventive techniques and verbal de-escalation; however, safe, non-harmful control techniques are also taught, and emphasis is placed on using physical interventions only as a last resort. Participants will learn to organize their thinking about how behavior escalates and how to respond appropriately during moments of chaos. Just knowing that there are safe options, builds staff confidences. This leads to fewer disruptive incidents because more behavior is defused before it becomes physical. With a core philosophy of providing for the Care, Welfare, Safety, and SecuritySM of everyone involved in a crisis situation, the program’s proven strategies give educators the skills to safely and effectively respond to anxious, hostile, or violent behavior while balancing the responsibilities of care.

Please Note: CPI now offers 2 training options for new certifications. Option 1: FLEX training includes 1 day of online coursework (approx. 3 hours total, done at the learner's own pace) plus 1 day of face-to-face training. Option 2: TRADITIONAL training offers 2 days of face-to-face training.
