►► Depew Senior Looks Forward to Joining Workforce

Josiah Fox is a senior from Depew High School and is enrolled in the Welding program at Erie 1 BOCES Potter Career & Technical Center.

"I enrolled in BOCES because welding interested me very much," Josiah said.

In the fall of 2023, following graduation, Josiah plans on either attending the Northland Workforce Training Center in Buffalo or obtaining an apprenticeship in a local union.

Under the instruction of Daniel Feeney, Josiah has learned about metal working safety, oxy-fuel cutting, light manufacturing and more.

"Josiah has been a hard-working student since the first time he stepped foot in the shop," Feeney said. "He is a genuinely kind person who is always willing to help."

"This program has helped teach me the skills and knowledge I need to be a successful welder," Josiah said.

As part of public education, Erie 1 BOCES offers a variety of career and technical programs during the regular school day to high school students in Erie County. High school students interested in learning more about how they can participate in various programs such as sports science, web and gaming technologies, welding or aviation technology should visit www.e1b.org/cte or speak with their high school counselor.

►► Depew Student Finds Success

Lily Pulaski has found success in the Related Services program at Como Park Elementary.

"Lily has been a star student in speech therapy for several years now," said Lily's instructor, Cathy Lubkowski. "She always comes with a great attitude and is ready to work. She never complains or gives up, even when the language or articulation work is challenging. If one of her peers doesn't understand something, she is the first one to help out."

►► What is BOCES?

Erie 1 Board of Cooperative Educational Services (BOCES) is a regional school cooperative providing instructional and professional services in order to empower others and transform lives. In 1957, school districts in Erie County created Erie 1 BOCES to collaborate on educational offerings while reducing their individual expenses and enhancing quality.
