▶▶ CTE Program Helps Student Explore Creative Passion

Meaghan Pinski is a senior from Cleveland Hill High School and is enrolled in the Digital Media program at Erie 1 BOCES Harkness Career and Technical Center.

"I enrolled in BOCES because the Digital Media program was the most art- and creativity-centered class I could take," Meaghan said. "I felt like it could further help me in the future."

In the fall of 2021, following graduation, Meaghan plans to continue pursuing her passion for creativity.

Under the instruction of Jason Bieger, Meaghan has learned about Adobe Photoshop, sound design, digital photography, and more.

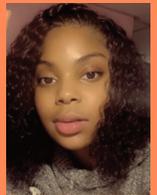

"Meaghan's talent is a direct product of her intense focus and dedication to her craft," said Bieger. "I've seen the growth with my own eyes and her focus is truly admirable."

"This program has provided me an advantage to reach my goals by helping me better understand Adobe programs, especially Photoshop," Meaghan said. "Knowing how to use these programs has benefited me in many ways, as I can now create better-quality personal projects at home."

As part of public education, Erie 1 BOCES offers a variety of career and technical programs during the regular school day to high school students in Erie County. High school students interested in learning more about how they can participate in various programs such as sports science careers, web technologies and game programming, health careers or aviation technology, should visit www.e1b.org/cte or speak with their high school counselor.
