

## **Appendix B: Return to School Document**

Patient's/Student's Name: \_\_\_\_\_

DOB: \_\_\_\_\_

Name of School District: \_\_\_\_\_

Name of School: \_\_\_\_\_

Onset of Symptoms: \_\_\_\_\_

Last Day in School: \_\_\_\_\_

### **SYMPTOMATIC / NOT TESTED / NOT A CLOSE CONTACT' TO A POSITIVE CASE**

\_\_\_\_ 1.) Student found to have another source of symptoms, SARS-CoV2 testing was NOT done, and may return to school when they are 24 hours fever-free<sup>2</sup> with no antipyretic use and other symptoms are improving. **(The provider must be confident the illness is not COVID-19 and is required to provide a note explaining the alternate diagnosis).**

\_\_\_\_ 2.) Student NOT found to have another source of symptoms or they have a source for their symptoms but the provider is not confident that COVID-19 is excluded and SARS-CoV2 testing was NOT done. Patient may return to school after a MINIMUM of **5 days** from the onset of symptoms with the last 24 hours fever-free<sup>2</sup> with no antipyretic use, other symptoms improving and must be able to wear a well-fitting mask at all times.

### **SYMPTOMATIC / NEGATIVE COVID-19 TEST / NOT A CLOSE CONTACT' TO A POSITIVE CASE**

\_\_\_\_ 3.) Student had a NEGATIVE NAAT test for SARS-CoV2, as well as another source for symptoms, and may return to school when they are 24 hours fever-free<sup>2</sup> with no antipyretic use, other symptoms are improving and must be able to wear a well-fitting mask at all times.

\_\_\_\_ 4.) Student had a NEGATIVE NAAT test for SARS-CoV2, with high suspicion of possible false negative test based on provider's judgement, so may return to school after a MINIMUM of **5 days** from the onset of symptoms with the last 24 hours fever-free<sup>2</sup> with no antipyretic use, other symptoms improving and must be able to wear a well-fitting mask at all times.

### **POSITIVE COVID-19 TEST WITH OR WITHOUT SYMPTOMS**

\_\_\_\_ 5.) Student had a POSITIVE test for SARS-CoV2 and must stay home for a MINIMUM of 5 days from the onset of symptoms with the last 24 hours fever-free<sup>2</sup> with no antipyretic use, other symptoms improving and must be able to wear a well-fitting mask at all times.

\_\_\_\_ 6.) Student is asymptomatic but had a POSITIVE test for SARS-CoV2 and must stay home for **5 days** from the date of the test. If symptoms develop, the student must THEN stay home for a MINIMUM of 5 days from the onset of symptoms with the last 24 hours fever-free<sup>2</sup> with no antipyretic use, other symptoms improving and must be able to wear a well-fitting mask at all times.

### **CLOSE CONTACT' TO A COVID-19 POSITIVE PERSON**

\_\_\_\_ 7.) Non-fully vaccinated student who is ***asymptomatic*** and has had close contact' to someone with COVID-19 must quarantine for **5 days** from the date of the last exposure to the positive case. However, if student remains asymptomatic and gets a negative PCR test on Day 5, 6 or 7 after exposure, student can return on Day 8. If the positive COVID-19 case is a household member and the student is unable to quarantine from the case, the student's quarantine date will be extended at least 5 days past the last contagious day of the positive case.

***-If symptoms develop, the student may return to school after a MINIMUM of 5 days from the onset of symptoms with the last 24 hours fever-free<sup>2</sup> with no antipyretic use, other symptoms improving and must be able to wear a well-fitting mask at all times.***

**\*\*Fully vaccinated students identified as close contacts as long as they are asymptomatic are not subject to quarantine.**

The **EARLIEST** this patient may return to school is: \_\_\_\_\_ (To be verified by ECDOH)

Physician's Name: \_\_\_\_\_ Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Office name and phone: \_\_\_\_\_

***If testing is PENDING, please complete the form only after results are available. A student may not return while a test is pending.***

<sup>1</sup>***Close contact is defined as students who are within 3 ft in the classroom setting or teachers/staff who are within 6 ft for ≥ 15 minutes in a 24-hour period regardless if masks were worn. Fully vaccinated asymptomatic individuals are not quarantined.***

<sup>2</sup>***Fever is defined as ≥100.0°F. If fever was never present, the other guidelines must still be followed.***

***Day 0 is day of symptom onset or positive test.***

This statement is valid based on relevant information on the date above, but may change based on new symptoms, exposures, or results. The patient's family has been instructed to notify the office for any changes.

**As of September 27, 2021, schools should follow NYSDOH Guidance and related determination. This guidance will remain online for reference.**
